## **SPECIAL NOTICE TO NAVIGATION INTERESTS**

### **Kaskaskia Lock and Dam, IL- Reopening**

1. All navigation interests are advised that Kaskaskia River Lock and Dam located at the confluence of UMRS River Mile 117.5 is reopening Wednesday afternoon. River stage at the lock is currently 379.94 feet NGVD and falling.
2. Critical river level elevation is 380.50 feet NGVD, when water begins entering miter gate machinery recesses. The miter gate recesses must be cleaned out after water levels recede and prior to reopening of the lock to traffic. Cleaning of the miter gate recesses is now complete.
3. Please contact the U.S. Army Corps of Engineers at the Kaskaskia River Project Office at 618-284-7160 or [KaskyL&D@usace.army.mil](mailto:KaskyL&D@usace.army.mil) for additional information.

FOR THE DISTRICT ENGINEER:
